## **Making Jesus Known.**

### **Where**

In the village of Gërdec, Albania

### **To Whom**

Our family of 12 young people who because of a physical disability have been denied the chance of education and live on the fringe of a society that hardly acknowledges their existence.

### **How**

By showing God's love to our students and their families in a practical way.

We have a government approved education programme.

We're beginning a vocational training project.

We provide physiotherapy and training for independent living.

We have seen our young people being transformed from quiet, sullen and withdrawn individuals into friendly, happy, more confident young people.

Some have come into a personal relationship with Jesus and are being introduced into churches in their own village.
